

Dear Parent/Guardian

This is a letter of Congratulations to the participants of the 'Sweetheart' Campaign. The Firefighter Foundation in partnership with your school recognises the achievement of purchasing a Defibrillator and protecting the children and teachers of your school.

You as participants have shown a commitment to keeping your school and your community safe. Through your efforts of fundraising and community safety awareness you have ensured that a child or adult in cardiac arrest has a chance of survival through using a Defibrillator.

You are to be commended for your actions as this may save a life one day!

Your school is also to be commended for taking the commitment and responsibility to protect the children, teachers and visitors to your school. Your school has become a great example of good citizenship and community safety.

As your school goes forward into the future your efforts and achievement to child safety will be an inspiration to others in the community.

The Firefighter Foundation would like to thank all participants in achieving the goal of owning a defibrillator in your school. Our Motto is 'Courage, Compassion, Community'.

Courage to make a difference, Compassion to care and Community to make it happen!

You and your school have demonstrated these qualities through your achievement.

Thank you.
